Technical data

Payload:	500 kg
Weight:	27 kg
Width:	660 mm
Depth:	1366 mm
Height:	1054 mm

Heavy-duty transport trolley with smooth 47. 2 × 0. 24'' (1200 × 600 mm) shelf.

Trolley in robust, self-supporting and hygienic design, made of high-quality stainless steel. Smooth platform, with reinforcement strut on the underside made of U-shaped stainless steel profile, with sound insulation on the underside, hygienically folded and rebated inwards, designed for easy cleaning. Onesided square tube push bar welded to the platform, ergonomically angled by 30°, ensures good manoeuvrability. Additional 4 ø 0. 28'' (7 mm) round bolts at the push bar interior for holding the optional front wall panelling. 2 front polymer corner bumpers serve as bumpers and protect trolley as well as building-side walls from being damaged. Trolley runs on 2 swivel casters with total locks and 2 fixed casters, fastened by means of screw-on plates and several screws.

The Hupfer heavy duty platform trolley TW/s 12 × 6 provides the highest overall load bearing capacity in comparison to other products, and its ergonomically angled push handle gives it outstanding handling properties.
