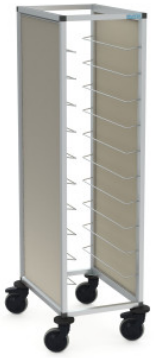
TAWALU tray clearing trolley for 10×EN

Технические характеристики изделия 0222288-N | TAWALU 1/10 EN 125-L S



Показан пример без декоративных элементов, точность технического описания не гарантируется.

Технические характеристики

Размер ячейки:	125 mm
Тип шин:	Lengthwise insertion
Полезная нагрузка:	120
Масса:	17 кг
Ширина:	505 мм
Глубина:	687 мм
Высота:	1635 мм

The TAWALU tray clearance trolley from Hupfer enables efficient interim storage and return transport of trays. It organises the transport of dirty dishes and ensures space-saving handling.

The TAWALU tray clearing trolley is a hygienic, torsion-resistant tubular frame construction made of aluminium. Even under maximum load, you can manoeuvre the Hupfer TAWALU with minimal effort. The tray clearing trolley is designed for space-saving interim storage and smooth return transport of dirty dishes in your communal catering, self-service restaurant, cafeteria, or similar establishments.

The firmly welded, sturdy stainless steel tray supports allow trays to be slid in effortlessly. A double-sided push-through guard secures the trays and prevents them from accidentally falling out. Extensive options regarding model, equipment, special dimensions, insertion direction, and colour scheme allow a customised design of your tray clearing trolley. High-quality swivel castors in various versions enable smooth movement and precise manoeuvring.

- Torsion-resistant aluminium construction allows easy driving with minimal effort
- Extensive options enable customised design and individual usage possibilities
- Double-sided push-through protection secures the trays and prevents accidental falling out
