## **Reinforcing beam 400 mm**

## **Technical data**

Weight: 0.2 kg
Width: 339 mm
Depth: 38 mm
Height: 30 mm

Similar to illustration, technical modifications reserved. Without decoration.

The reinforcement beam serves to optimise the stability of a closed support.

The powerful reinforcement beam made of stainless steel ensures maximum stability of a closed support. The Hupfer reinforcement beam provides a robust and reliable solution even under heavier loads. The sturdy construction made of high-quality stainless steel guarantees a long lifespan and is easy to assemble. The reinforcement beam increases the load-bearing capacity of the support and ensures optimal weight distribution. The improved efficiency of the bearing surface creates additional space for even more goods.
