<b>Weight:</b>	7 kg
<b>Width:</b>	1000 mm
<b>Depth:</b>	550 mm
<b>Height:</b>	300 mm

*Similar to illustration, technical modifications reserved. Without decoration.*

Base grating made of high-quality stainless steel in hygienic design as per DIN 18868-2, suitable for continuous use at -40 to +140°F (-40 to +60 °C).

Welded frame made of high-quality square tubes with horizontal struts welded at the face side for enhanced rigidity. Upper covering caps made of plastic, height-adjustable screw feet for compensating floor unevennesses of up to 0.8" (20 mm), as hygienic ending of frame. Welded stainless steel wire shelf, electropolished, consisting of 1.4 × 0.4 × 0.12" (35 × 10 × 3.0 mm) angle sections at the long sides, with Ø 0.14" (3.5 mm) wires welded in between and running crosswise at distances of 1.0" (25 mm) and with reinforcement struts on the underside made of Ø 0.14" (3.5 mm) wire. Enhanced rigidity through centred 0.8 × 0.8" (20 × 20 mm) stainless steel square tube as additional reinforcement strut on the underside and through four diagonally welded struts between support and vertical parts of the frame.

The Hupfer Norm 5 stainless steel floor shelf is delivered as a welded model, and provides HACCP-compliant storage options for foodstuffs, a floor clearance height that ensures easy cleaning, and is suitable for a wide range of temperature conditions.
