The Norm 12/20 bracket set is designed for space-saving and stable connection of two upright shelving units in a back-to-back arrangement.

The bracing set enables a secure connection of two shelving units in back-to-back assembly. This allows you to use your storage space efficiently while maximising the stability of your shelving units. Thanks to the use of high-quality, recyclable stainless steel and user-friendly assembly, the bracing set is the ideal complement to your shelving units.

- Secure connection of two upright shelves in back-to-back assembly
- Maximises the stability of the upright shelves
- Made from high-quality, recyclable stainless steel for long-lasting durability and hygienic cleaning
