

Basket dispenser for plastic components 570×570 mm

we make work flow

Technical data

Payload:	80 kg
Weight:	50 kg
Width:	760 mm
Depth:	851 mm
Height:	908 mm

Similar to illustration, technical modifications reserved. Without decoration.

Closed platform dispenser with height-adjustable platform for storing up to 9 stacks of plastic insulation elements.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed, smooth outer housing with one stacking compartment including compartment inner panelling consisting of vertical plastic-coated struts. Removable guide basket made of plastic-coated steel wire as stacking platform with ball bearing platform guide. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via a cleaning opening in the base plate. Four polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, ø 4.9" (125 mm), fastened by means of screw-on plates and several screws.

The Hupfer platform dispenser BDK 57-57 has two push handles installed on the corners of the unit to ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the hands. The installation height of 900 mm is the standard working height in food distribution.
