Payload:	120 kg
Weight:	29 kg
Width:	800 mm
Depth:	558 mm
Height:	900 mm

Similar to illustration, technical modifications reserved. Without decoration.

The basket stacker is used for the transport, intermediate storage and ergonomic provision of small crockery items such as cups, saucers and mugs in baskets.

The Hupfer basket stacker makes your work processes considerably easier and creates order and clarity. In the baskets of the stacker, you stack your small, poorly stackable dishes in an orderly, clear and gentle manner. The basket stacker makes the crockery ready for distribution at an ergonomic working height. Ergonomically shaped push handles, solid bumper corners and 4 swivel castors allow you to move and place the stacker safely. The stainless steel construction is easy to clean thanks to the high-quality and well-thought-out workmanship and ensures maximum hygiene.
