Technical data

Payload:	18 kg
Capacity:	600 W
Supply voltage:	220 V
Nominal current:	3,0 A
Protection class:	Class I
Frequency:	50 Hz
Weight:	11 kg
Width:	793 mm
Depth:	664 mm
Height:	43 mm

The warming plate with a glass surface is used for the presentation and serving of food. The warming plate with a glass surface offers an attractive display and supports the organisation of food in the hospitality industry.

The Hupfer warming plate with glass surface offers an elegant and functional solution for the presentation and serving of food in the catering industry. The innovative film heating ensures even heat distribution, keeping food optimally tempered. A seamless integration into existing kitchen systems is made possible by the integrated installation frame, guaranteeing a harmonious fit. The high-quality glass material ensures durability and effortless cleaning, thereby ensuring the highest hygiene standards. The Hupfer warming plate is the perfect solution for efficient organisation and presentation of food, combining both functionality and aesthetics.

- Film heating ensures even heat distribution and optimal tempering of food
- Glass surface provides an appealing design and easy visual inspection of contents
- Mounting frame allows for seamless installation and harmonious integration into existing kitchen systems
- High-quality glass material guarantees durability and easy cleaning for maximum hygiene
