Similar to illustration, technical modifications reserved. Without decoration.

Hupfer enables the easy transportation of heavy loads through the swivel castor with a central locking mechanism. The castor aids in sorting and organising materials through its mobility and stability.

Discover the swivel castor with central locking Ø160 mm from Hupfer, the perfect solution for your logistics needs in commercial catering. This robust castor made of high-quality stainless steel offers reliable stability and durability. The integrated central locking mechanism provides additional safety and control when transporting food and equipment. The PU easy-running castor allows for effortless movement, even with heavy loads, minimising the effort required. With the swivel castor, you can optimise the efficiency of your processes and increase productivity in your kitchen. Trust Hupfer to elegantly solve your logistics problems and ensure smooth service.

- **Diameter of 160 mm** - Optimal mobility for various applications.
- **Mounting plate** - Easy installation and stable fixing.
- **Ball bearing** - Low rolling resistance for effortless movement.
- **PU swivel caster** - High load capacity and low noise during operation.
- **Stainless steel housing** - Durability and resistance to corrosion.
- **Central lock** - Secure and stable holding of the caster when needed.
