Technical data

Modular dimension:	37.5 mm
Insertion type:	Lengthwise insertion
Payload:	45
Weight:	44 kg
Width:	585 mm
Depth:	799 mm
Height:	734 mm

Similar to illustration, technical modifications reserved. Without decoration.

The Isobox Flex is designed for the output and temperature-safe transport of food components in GN containers or on GN trays over long, demanding transport routes. With the Isobox Flex XS, Undercounter, you can organise food space-savingly under the counter.

The Hupfer Isobox Flex ×S Undercounter for 9×GN 1/1 offers outstanding temperature-safe transport for hot and cold food components. Its insulated stainless steel housing ensures excellent heat retention, maintaining food quality over long, demanding routes. The versatile design includes tool-free mounting for neutral, cooling, and heating modules, allowing quick adaptation to varying temperature needs. True-tracking swivel and fixed castors provide smooth, precise manoeuvring, even in tight spaces. Deep-drawn stainless steel shelves guarantee durable, hygienic surfaces that are easy to clean. Hinged, lockable doors with integrated push handles enable ergonomic handling and efficient loading. The Isobox Flex ×S Undercounter organises food space-savingly under counters, optimising kitchen logistics. This robust, adaptable solution enhances food safety and streamlines transport in commercial catering environments.

- Insulated housing ensures excellent temperature retention for safe transport of hot or cold food components
- Mounting for neutral, cooling and heating modules allows quick adaptation to varying temperature requirements without tools
- True-tracking mobility with swivel and fixed castors provides smooth, precise
