

Isobox Flex L for 16×GN 1/1

P/N: 0223144 | IBF L 1/16 75 GN

HUPFER
we make work flow

Technical data

Modular dimension:	75 mm
Insertion type:	Lengthwise insertion
Payload:	144
Weight:	73 kg
Width:	585 mm
Depth:	799 mm
Height:	1594 mm

Similar to illustration, technical modifications reserved. Without decoration.

The Isobox Flex is designed for the dispensing and temperature-safe transport of food components in GN containers or on GN trays over long, demanding transport routes. With the Isobox Flex L, you can transport food in a large compartment.

The Hupfer Isobox Flex L for 16×GN 1/1 is a versatile insulated transport solution designed for commercial catering. Its aluminium construction with solid corner bumpers offers lightweight stability and robust protection, ensuring reliable daily use. The insulated housing maintains optimal temperatures, keeping hot and cold food components fresh on long, demanding transport routes. Tool-free mounting for heating, cooling, and neutral modules allows flexible adaptation to varying temperature needs. Deep-drawn stainless steel beads provide durable, hygienic shelving that securely supports GN containers and simplifies cleaning. True-tracking mobility with swivel and fixed castors ensures easy manoeuvring and stable transport, even on challenging surfaces. The Isobox Flex L solves temperature control and transport challenges efficiently, making it ideal for off-premises catering and meal distribution. This innovative product from Hupfer Metallwerke GmbH & Co. KG combines durability, hygiene, and ergonomic design for seamless food logistics.

- Insulated housing maintains optimal temperature for hot and cold food components during long transport routes
- Mounting for neutral, cooling and heating modules allows flexible, tool-free adaptation to various temperature requirements
- True-tracking mobility with swivel and fixed castors ensures easy
