## Technical data

<b>Modular dimension:</b>	400 mm
<b>Payload:</b>	300
<b>Weight:</b>	7 kg
<b>Width:</b>	605 mm
<b>Depth:</b>	675 mm
<b>Height:</b>	1460 mm

*Similar to illustration, technical modifications reserved. Without decoration.*

Hook trolley for the transport and storage of sterile goods baskets and other accessories for the hook system.

The Hupfer hook trolley with 6 pairs of hooks made from high-quality stainless steel offers a durable and hygienic solution for the transport and storage of sterilisation baskets. The double-sided pairs of hooks enable efficient hanging and secure storage, while the self-supporting tubular frame with curved corners ensures stability and robustness. Polyethylene bumper rollers protect the trolley and surrounding walls from damage. With a load capacity of 30 kg per hook, the hook trolley guarantees reliable transport of heavy sterilisation baskets. The four swivel castors, two of which have total locks, provide easy manoeuvrability and a secure stand. Ideal for medical logistics, the Hupfer hook trolley optimises workflow and ensures the highest levels of hygiene and safety.

- High-quality stainless steel ensures a durable, hygienic, and corrosion-resistant construction
- Double-sided pairs of hooks allow efficient hanging and secure storage of sterilisation baskets
- Self-supporting tubular frame with rounded corners provides a stable and robust design
- Polyethylene bumper rollers protect the trolley and surrounding walls from damage
