Technical data

Payload:	240 kg
Weight:	6 kg
Width:	605 mm
Depth:	675 mm
Height:	1097 mm

Similar to illustration, technical modifications reserved. Without decoration.

Hook trolley for the transport and storage of sterile goods baskets and other hanging parts for the hook system.

The Hupfer hook trolley with 4 pairs of hooks made from high-quality stainless steel offers a durable and hygienic solution for the transport and storage of sterile goods baskets. The sturdy tubular frame with curved corners ensures a self-supporting design and easy cleaning. Double-sided pairs of hooks allow for secure and space-saving hanging of various attachments. Polyethylene bumper rollers protect the trolley and walls from damage, while four swivel castors, two of which have total locks, guarantee smooth manoeuvrability and a secure stand. The hook trolley optimises sterile logistics through safe handling and efficient use of space. Ideal for medical facilities that rely on reliable and hygienic transport solutions.

- High-quality stainless steel ensures a durable, hygienic, and corrosion-resistant construction
- Double-sided pairs of hooks allow secure and space-saving hanging of sterilisation baskets and hanging parts
- Tube frame with curved corners guarantees a stable, self-supporting design and easy cleaning
- Polyethylene bumper rollers protect the trolley and walls from damage and increase operational safety
- Four swivel castors, two of which have total locks, ensure smooth movement
