

Instrument basket 240×250×60 mm

P/N: 7500645 | SiKo 240/250/060 oR FG LB/SG

Technical data

Weight: 0.7 kg

Width: 240 mm

Depth: 250 mm

Height: 60 mm

Similar to illustration, technical modifications reserved. Without decoration.

The stainless steel sieve basket is used for the transport, cleaning, storage, and provision of medical instruments.

The stackable sieve basket is designed for the secure transport, efficient cleaning, space-saving storage, and reliable provision of medical instruments. The Hupfer sieve basket ensures practical organisation and quick access to instruments in hospitals, clinics, and other medical facilities.

The construction from high-quality, electrolytically polished stainless steel is easy to clean and ensures optimal hygiene. The special shape of the base frame allows for space-saving and clear stacking of the baskets on top of each other.

The sieve basket is available in various mesh sizes and dimensions.
