Sterile supplies basket for transport, storage and provision of sterile supplies in soft packages, without container insert, also suitable for holding the Hupfer compound sieve.

Basket in sterilisable version, suitable for washing devices, made of high-quality electro-polished stainless steel round material. Two frontal foldable carrying brackets enable the baskets to be stacked either into one another (when empty, e.g. in the cleaning or disinfection equipment) or onto one another (when filled).

- solid polymer shelf with low weight ensures safe, hygienic storage and clear access at all times
- high-quality polymer workmanship allows for easy cleaning and perfect hygiene. It is even dishwasher safe.
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
