<b>Weight:</b>	63 kg
<b>Width:</b>	4425 mm
<b>Depth:</b>	400 mm
<b>Height:</b>	1600 mm

Solid shelf, polished galvanised, made of 0.04" (1.0 mm) thick and corrosion-resistant sheet steel, with burr-free cutting edges, folded and rebated inwards by 1.6" (40 mm) at the long side and by 1.2" (30 mm) at the face side.

The Hupfer Norm 12 standing shelf is a lightweight construction made from a combination of aluminium and plastic. The shelf offers a very easy-to-clean, clear, and accessible storage solution for organisation in your logistics.

The modular design allows for a needs-specific configuration for a variety of spatial conditions and temperature environments, thus ensuring maximum space efficiency. Uneven floors and temperatures of -30°C are not a problem even in the long term. The shelf is easy to assemble and can be extended at any time in a straight line or at an angle, easily adapting to changes in logistical operations.

The effortlessly hung, closed plastic surface provides a lightweight, stable, and very easy-to-clean storage area, even dishwasher-safe. Despite its low weight, this surface can hold high loads.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees to buy back your entire shelf at the end of its service life.

- solid polymer shelf with low weight ensures safe, hygienic storage and clear access at all times

**Stationary shelving set norm 12 with solid shelf****P/N: N12GS45004001600 | A-GS/N28 1200/400**

- high-quality polymer workmanship allows for easy cleaning and perfect hygiene. It is even dishwasher safe.
- modular system allows for any design and extension and ensures the most efficient use of space
- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
