Technical data

Similar to illustration, technical modifications reserved. Without decoration.

Modular dimension:	150 mm
Max. bay load	150
Carbon footprint (TM65 Basic Report)	17 kgCO ₂ e
Weight:	59 kg
Width:	3750 mm
Depth:	600 mm
Height:	1200 mm

The stainless steel wire mesh shelf of the Norm 5 rack provides a well-ventilated, safe, and hygienic surface for high loads. It is suitable for continuous use at ambient temperatures from -40°C to +60°C.

The effortlessly attachable wire rack cover made of high-quality stainless steel provides a well-ventilated, safe, and easy-to-clean surface. This cover for the Norm 5 shelf accommodates high load capacities. Temperatures ranging from -40°C to +60°C pose no problem even in the long term. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees today to buy back your entire shelf at the end of its service life.

- Wire mesh design in stainless steel ensures well-ventilated, safe, and hygienic storage, preserving the condition of the stored goods.
- Quality craftsmanship from high-grade stainless steel enables perfect hygiene and easy cleaning.
- Valuable materials ensure sustainability and value retention.
- Sturdy construction guarantees high load capacity.
- Modular system allows for easy handling from assembly to cleaning with minimal effort.
