HUPFER
we make work flow

Technical data

Similar to illustration, technical modifications reserved. Without decoration.

Modular dimension:	150 mm
Carbon footprint (TM65 Basic Report)	1202 kgCO ₂ e
Weight:	51 kg
Width:	4050 mm
Depth:	400 mm
Height:	1600 mm

The spacers connect the shelf stands together and ensure a stable position of the shelf.

The spacers made of high-quality stainless steel ensure a stable connection of the shelving units. They increase the stability of the shelving structure and prevent the shelving units from touching each other. The simple assembly allows for effortless adjustment of your shelving system to your needs. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees today to buy back your entire shelving unit at the end of its service life.

- increase the stability of the shelves
- for a secure connection of the shelf supports
- easy assembly
- use of high-quality stainless steel ensures durability and robustness
