Technical data

Similar to illustration, technical modifications reserved. Without decoration.

Modular dimension:	150 mm
Max. bay load	150
Max. section load	600
Carbon footprint (TM65 Basic Report)	1943 kgCO ₂ e
Weight:	55 kg
Width:	3450 mm
Depth:	600 mm
Height:	2000 mm

Closed stainless steel shelf made of 0.04" (1.0 mm) thick sheet steel, folded and rebated inwards by 1.6" (40 mm) at the long side and by 1.2" (30 mm) at the face side. Additional U-shaped profiles as reinforcement struts on the underside.

The Hupfer Norm 20 stationary shelving is a lightweight structure made from anodised aluminium. The shelving offers a clearly arranged and easily accessible storage solution for organised logistics. The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from 40°C to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics. The solid shelf, which can be hooked in effortlessly, is made from anodised aluminium and provides a stable, easy-to-handle and easy-to-clean storage surface. This shelf holds heavy loads despite its light weight. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- solid shelf made from lightweight aluminium ensures easy handling, safe, hygienic storage and clear access at all times
- high-quality aluminium workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most

efficient use of space

- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
