

Stationary shelving set norm 35 with solid shelf

P/N: N35GS27006101800 | KCont G4 150/230/125 gn

Technical data

Similar to illustration, technical modifications reserved. Without decoration.

Modular dimension:	300 mm
Temperature resistance:	-40 to +80° C
Max. section load	2000
Carbon footprint (TM65 Midlevel Report)	1028 kgCO ₂
TM65 Midlevel Report	Link to the certificate
Weight:	108 kg
Width:	2650 mm
Depth:	610 mm
Height:	1800 mm

Plastic container for storage, transport and provision of small medical supplies.

The Hupfer Norm 35 stationary shelving offers a clearly arranged storage solution that has been reinforced to offer high load-bearing capacities for organised logistics. The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics. The solid shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a stable and easy-to-clean storage surface while also offering particularly high load capacities. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- lateral bracing bars also reinforce the shelving and allow for particularly high load-bearing capacities
- solid shelf ensures safe, hygienic storage and clear access at all times
- high-quality stainless steel workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most efficient use of space

Stationary shelving set norm 35 with solid shelf

P/N: N35GS27006101800 | KCont G4 150/230/125 gn

- valuable materials ensure sustainability and value retention
- robust construction guarantees high stability and particularly high load-bearing capacity
- modular system ensures easy handling from assembly to cleaning with little effort
