Technical data

Similar to illustration, technical modifications reserved. Without decoration.

Modular dimension:	150 mm
Temperature resistance:	-40 to +80° C
Max. section load	600
Carbon footprint (TM65 Basic Report)	218 kgCO ₂ e
Weight:	23 kg
Width:	600 mm
Depth:	600 mm
Height:	2000 mm

Plastic container for storage, transport and provision of small medical supplies.

The Hupfer Norm 5 stationary shelving offers a clearly arranged and easily accessible storage solution for organised logistics.

The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -40°C up to +60°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics.

The solid shelf, which can be hooked in effortlessly, is made from high-quality stainless steel and provides a stable and easy-to-clean storage surface while also offering high load-bearing capacities.

The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- solid shelf ensures safe, hygienic storage and clear access at all times
- high-quality stainless steel workmanship enables easy cleaning and perfect hygiene
- modular system allows for any design and extension and ensures the most
