

NEW: conforms to DIN EN 14183

Strong performance in the operating theatre

Conforms to DIN EN 14183, engineered for improved safety

Hupfer's new generation of operating theatre steps now satisfies all the requirements of DIN EN 14183. They are made of stainless steel and provide maximum stability, remain firmly in position and ensure optimum safety in the operating theatre.

Advantages and benefits at a glance:

- Steps do not overlap
- Steps are the same height
- Steps and frame are bolted together securely (can be unscrewed for cleaning)
- Steps have non-slip, ridged surfaces
- Secure and stable position thanks to rubber-coated, non-slip standing feet
- Electrically conductive

| Dimensions W x D x H in mm | | Article no. |
|-------------------------------|---------|-------------|
| 600 x 350 x 130 | 1 step | 7500294 |
| 600 x 350 x 220 | 1 step | 7500295 |
| 600 x 350 x 300 | 1 step | 7500296 |
| 600 x 680 x 220-440 | 2 steps | 7500297 |

| Replacement part | | Article no. |
|---|------------|-------------|
| Standing foot for operating theatre step | (4 pieces) | 0191386510 |
