With stainless steel side and back walls. Equipped with polycarbonate container and grid.

The range of clear up trolleys by HUPFER® is a fixed component for a frictionless return of soiled dishes in every canteen kitchen. The product line TAWEDEL does justice to the great demands in catering for groups, in canteens, restaurants, cafeterias, etc. The sturdy shelf is made of stainless steel 18/10, material 1.4301 while the tray supports consist of a gentle round stock and are permanently connected with the shelf. Made to the highest possible workmanship standards ensures ease of cleaning for highest standards of hygiene.

To facilitate exceptionally easy handling in daily operations with our tray clear up trolleys, there are four soft running deflection tumblers of which two are adjustable, Ø 125 mm. During the development of the TAWEDEL product line the latest ergonomic and functional aspects were developed by our engineers, while special importance was attached to a high front-to-back-size of the product. As a result the TAWEDEL line is, depending on the model, suitable for use with Gastro-Norm-trays, Euro-Norm-trays or trapezoid trays. There is a sliding handle of stainless steel 18/10, material 1.4301 available.

## Space-saving storing... ...effortless transporting!

### TAWEDEL 2/24 EN

Capacity: 24 EN-trays.

The pictured piece of equipment is equipped with the accessory contained gallery, a push through protection on both sides and a sliding handle. All TAWEDEL models by HUPFER® can be colour matched individually with your interior furnishings. The side and back walls are apart from stainless steel 18/10, material 1.4301, available in many standard colours / patterns. Special colours can be requested. Please ask for the range of colours when required.

For the transport of rubbish a polycarbonate container with top is available. In conjunction with a grid, this container is suitable for the secure transport of bottles and glasses.

### TAWEDEL 2/24 GN

Capacity:  
24 GN-trays.

So that everything stays where it belongs there is a swivelling push through protection for all TAWEDEL models for additional self installation.

On request the tray clear up trolleys can be equipped with a roof and orbiting gallery. Also a vertical, swivelling push through protection accessory that can be fitted additionally. As an option all TAWEDEL models are available as two-sided or three-sided closed versions. So you can adjust the TAWEDEL by HUPFER® especially to your needs and fit it into your process chain.

### Detailed estimate

The tray clear up trolley consists of stainless steel 18/10, material 1.4301. The sturdy shelf consists of rectangular tube 25x25 mm with permanently fixed tray supports of gentle round stock. The tray clear up trolley is open to all sides. The tray supports, noncorrosive of Ø 6 mm thick high-quality round stock of high-grade steel are permanently fixed with the shelf.

The trolley is on castors on four deflection tumblers in chromed galvanized steel housings, two of them adjustable, Ø 125 mm. The measurements of the pulleys correspond to the DIN 18867 part 8. Solid keep-off rail pulleys protect against damage from all sides.

The range of the TAWEDEL series by HUPFER® contains trolleys in single and double compartment depending on the transport volume. The single compartment trolleys are designed for the tray sizes Gastronorm, Euronorm and trapezoid trays, the double compartment trolleys for tray sizes Gastronorm and Euronorm.
