

SPECIALISTS IN KITCHEN LOGISTICS

BASKET TRANSPORT TROLLEYS

Stored neatly...

The basket transport trolleys KTW 1/5 and KTW 2/10 (low versions) are equipped with a railing on three sides which can also be used as a handle when pushing the trolley.

...transported smoothly!

Basket transport trolley KTW 2/10

The work surface is lined with a sound-insulating material.

The L-shaped shelf rails are equipped with a transport lock on both sides.

With the HUPFER® basket transport trolley you can organise your operations more economically and more efficiently. Especially developed to accommodate and transport standard commercial crockery baskets (500 x 500 or 508 x 508), with our basket transport trolleys we offer you products which are carefully thought-out and meet the many requirements of hectic everyday operations. Regardless of whether you need to transport dirty crockery, clean crockery, glasses, cutlery or food in baskets - the HUPFER® basket transport trolleys help you to manage these important logistical tasks.

The appliances are made from 1.4301 grade 18/10 stainless steel and are equipped with 4 castors, Ø 125 mm, of which 2 are lockable. The L-shaped shelf rails are welded to the frame - so the appliances can be simply and easily cleaned therefore meeting the high hygiene requirements in your business. Drip trays made from stainless steel which are available as accessories can be fitted with the baskets into the basket transport trolley. All models are provided as standard with deflector rollers. The manufacturing quality meets the high standard expected of HUPFER®.

We are the specialists in kitchen logistics.
With us you have your process chain under control!

Basket transport trolley KTW 1/10 Equipped with 10 pairs of shelf rails, provided with transport lock on both sides, so that everything stays where it belongs. The basket transport trolley (KTW 2/20) can also be supplied in the high version with two sets of 10 pairs of shelf rails and transport lock.
