

# Shelving price list 01/08/2023

**HUPFER**  
we make work flow

**1**

## STRONG PERFORMANCE WITH WIDTH UP TO 1,500mm

Although the majority of our shelves have always been able to handle a bay load of 150 kg, the solid shelves of our best-selling Norm 5 and Norm 20 units can now also handle a 150 kg bay load consistently up to a width of 1,500mm.

And the **maximum section load** for our 1,800 mm and 2,000mm high uprights is now also **1,200 kg** (excludes Norm25).

**2**

## BUY-BACK GUARANTEE

### VALUE. STABLE.

Hupfer shelving is made of high-quality materials that are still valuable at the end of their useful life: they are the hidden treasure of a commercial kitchen. Hupfer offers to buy back your shelving at the per-kilo price of the recyclable material on the buy-back day.<sup>1</sup>

**3**

<sup>1</sup> Please see our current buy-back conditions. These can be found at: [uk.hupfer.com/en/](http://uk.hupfer.com/en/).

**4**

## WE LOVE EURO CONTAINERS

Fits like a glove. The new 700 and 1,300mm shelf widths are perfectly matched to the standard dimensions of Euro containers (600 x 400 mm). Please also use the corresponding shelf depth of 400 or 600mm.

**6**

## STRONG SUPPORTING LUG

The optimised lug shape increases stability and prevents buckling.

**7**

## STABLE SUPPORT BAR

For wider shelves, the pre-assembled support bar provides perfect stability for our solid shelves.

**8**

## NEW EDGING

Not only does it look good, the optimised edging on shelves wider than 1,000mm gives a higher geometric moment of inertia. The result: maximum stability.

## INTRODUCTION TO OUR SHELVING RANGES

Comparison of solid shelves 1,300mm	Norm 12	Norm 20	Norm 5	Norm 25	Norm 35
	Aluminium/polymer	Aluminium	Stainless steel, various grades

## WHY HUPFER?

### Large selection, readily available

Thanks to our large warehouse, we are able to pre-produce many product variants in large quantities, so that your desired product reaches you as quickly as possible.

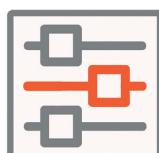

### Efficient delivery logistics

Your order is packaged in bundles for each assembly location, for example, cold store, thereby enabling direct allocation and rapid assembly.

### Top quality

High-quality materials and first-class workmanship guarantee lasting enjoyment of our products.

### Acceptance drawing in 24 hours

Thanks to our internal shelf configurator, we can send you a final acceptance drawing within 24 hours.

### Wide range of products

We have many different uprights and shelves, in various materials and with various accessories – for an exact fit in your room.

### Assembly could not be easier

Our shelving systems can be assembled with basic tools and no prior knowledge. However, if required, we are also happy to organise an assembly team.

# The principle

## Shelf sets in the shelving price list

- I-shaped shelf sets
- 4 shelves per shelf
- Widths 600-5,000 mm
- Widths for Euro crates optimised for Standard 5 and Standard 20

## The structure easily explained

We show you the basics of shelf construction:

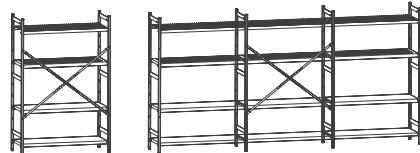

## THE CROSS STRUT

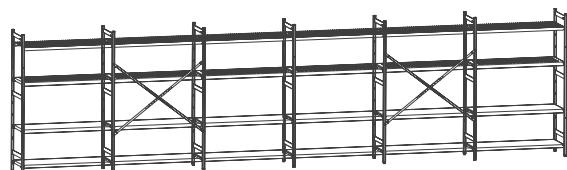

All shelf uprights are prepared for the possible attachment of a cross brace, but not every shelf bay needs a cross brace:

1-2 shelf bays: 1 cross brace

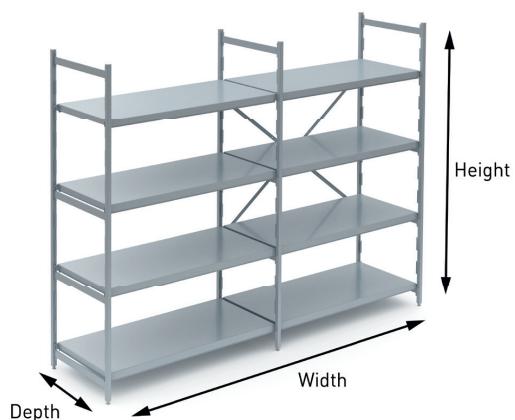

From 3 shelves:  
1 cross brace per 3 shelves

<b>N35</b>	Norm 35 – Stainless steel, heavy duty

## STATIONARY SHELVING SET NORM 5 WITH WIRE SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The wire shelf of the shelving norm 5 provides a well-ventilated, stable and hygienic storage surface.

Wire shelf of stainless steel	Max. Shelf load - <b>150 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 5 WITH SOLID SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The solid shelf of the shelving norm 5 provides a stable and hygienic storage surface.

Solid shelf of stainless steel	Max. Shelf load - <b>150 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 5 WITH LOUVRED SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The louvred shelf of the shelving norm 5 provides a ventilated, stable and hygienic storage surface.

Louvred shelf of stainless steel	Max. Shelf load- <b>150 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 35 WITH WIRE SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a particularly high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The wire shelf of the shelving norm 35 provides a well-ventilated, stable and hygienic storage surface.

Wire shelf of stainless steel	Max. Shelf load - <b>250 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>2000 kg</b>

## STATIONARY SHELVING SET NORM 35 WITH SOLID SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a particularly high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The solid shelf of the shelving norm 35 provides a stable and hygienic storage surface.

Solid shelf of stainless steel	Max. Shelf load - <b>250 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>2000 kg</b>

## STATIONARY SHELVING SET NORM 25 WITH SOLID SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for continuous use at ambient temperatures ranging from -40°C to +60°C. The solid shelf of the shelving norm 25 provides a stable and hygienic storage surface and allows easy identification of the items being stored.

Solid shelf of stainless steel	Max. Shelf load - <b>100 kg</b>
Upright of stainless steel	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 20 WITH SOLID SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The solid shelf, made from aluminium, of the shelving norm 20 provides a stable and hygienic storage surface.

Solid shelf of aluminium	Max. Shelf load - <b>150 kg</b>
Upright of aluminium	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 20 WITH LOUVRED SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The louvred shelf of the shelving norm 20 provides a ventilated, stable and hygienic storage surface.

Louvred shelf of aluminium	Max. Shelf load - <b>150 kg</b>
Upright of aluminium	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 12 WITH SOLID SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The solid shelf, made from polymer, of the shelving norm 12 provides a lightweight, stable and hygienic storage surface.

Solid shelf of polymer	Max. Shelf load - <b>100 kg</b>
Upright of aluminium	Max. Shelf upright load - <b>600 kg</b>

## STATIONARY SHELVING SET NORM 12 WITH LOUVRED SHELF

The stationary shelving is designed for storage and to optimise space utilisation. The shelving has a high load capacity and is suitable for use at an ambient temperature of -30°C. The louvred shelf, made from polymer, of the shelving norm 12 provides a ventilated, stable and hygienic storage surface.

Louvred shelf of polymer	Max. Shelf load - <b>100 kg</b>
Upright of aluminium	Max. Shelf upright load - <b>600 kg</b>
