

# HUPFER news

*Plug and play: Depending on your needs, up to three 1/1-Gastronorm fields can be heated up within 20 minutes. The self-regulating heating plate holds the GN containers warm during the food dispensing.*

## Transport safely, Serve hot

ISOBOX® Mobil flex –  
the versatile mobile food servery

Equipped with the stainless steel hotplate, the **Hupfer ISOBOX® Mobil flex** is particularly versatile: Food can be transported off-site and, in addition, can be served warm without additional equipment.

### Advantages and benefits at a glance:

- Transport and servery in one unit
- No additional equipment for food servery necessary
- Integrated electric heating plate (230 V) with three separately controlled heating plates (GN1 / 1)
- Flexible use for transporting food cold or warm\*
- Ideal for mobile off-site use

\* Separately available cooling or heating module required
