GN/EN formats

540 x 380 mm

for trays in  
special sizes

490 x 380 mm

for crockery  
baskets

523 x 523 mm

## Better for the customer - better for the trade.

What can you do better with an excellent product? Quite a lot!

In addition to the appreciated, unique product features, the new open sided tray and basket dispenser shine with an innovative, simplified adjustment of the tension spring. All you have to do is loosen two screws and the platform height can be individually adjusted. The result: maximum ergonomics.

During the further product development, **the needs of our dealers were also taken into account:** the basic unit can be used flexibly for various use cases. Whether GN/ EN formats, special sized trays or crockery baskets - the possibilities are manifold. Due to the high flexibility, the article can therefore be ordered without any risk on stock - **at very attractive special conditions.** Due to the optimization of the packing method, four basic units can easily fit on one Euro pallet. **This saves additional transport costs.**

**The new open sided tray and basket dispenser from Hupfer - added value for users and traders.**

## All the advantages at a glance.

### ONE FOR ALL!

The basic unit remains the same, the platform can be changed as needed. No matter whether trays in GN-/ EN format, special trays or crockery baskets.

### GOODBYE BACK PAIN!

Due to the individual adjustment of the working height, maximum ergonomics is ensured at all times.

### STURDY AND STABLE!

Solid impact protection on all sides. With a load capacity of 120 kg any application can be handled.

### OPTIMISED HANDLING!

The tension springs that ensure the consistent output height of the trays and baskets are now even easier to adjust.

### CLEAN FUN!

Thanks to the high quality stainless steel design, the dispenser can be cleaned thoroughly and very easily. That meets the highest standards of hygiene.
