

Clearing trolley multimobile... ...specially for use in schools!

Advantages and benefits in overview

Where school catering is concerned it is particularly important to consider how products are used around children. This also applies to clearing trolleys multimobile where diners - in this case nursery or school children - return their used crockery and cutlery.

A notice on the side gives easily understandable instructions about where to place used plates, cups, glasses, cutlery and trays as well as leftover food and napkins.

The HUPFER® clearing trolley multimobile provides all this, it is ergonomically designed with children in mind. It has 2 deposit surfaces with vertical side panels on 3 sides, a pull-out for glasses and 3 hook-on containers for leftover food, napkins or cutlery which can be positioned on the inside or outside.

With its compact manageable dimensions 1100 x 695 x 1020 mm (W x D x H) this tried and tested clearing trolley multimobile can be used in any daycare catering situation among diners in the dining hall or around the scullery or kitchen.

Facilitates the return of waste and crockery while meeting ergonomic needs.
