

# Instrument Baskets and Sterile Goods Baskets

# Your partner for innovative sterile supplies logistics

At Hupfer we develop our products and systems based on a deep understanding of the logistical structures and individual requirements of clinics and medical departments.

As specialists for sterile supplies logistics, we offer integrated solutions for supplying and disposing of sterile goods. Whether packaging, sterilising, transporting, storing, distributing, cleaning or disinfecting – Hupfer helps you optimise work processes, increase occupational safety and guarantee the highest standards of hygiene for cleaning, disinfecting and sterilising.

With decades of experience, in-depth knowledge of the industry and comprehensive solutions, we support planners, specialist dealers and users, so that everyone involved can be sure that they can achieve the goals we all share: safety, cost-effectiveness and genuinely satisfied customers, including the patients.

## Your active designer throughout the entire logistics cycle

*When it comes to efficiency, Hupfer defines itself as a maker, an active designer with a focus on holistic solutions and less on the individual product.*

As "efficiency makers", we not only want to develop economical products, but we also want to do so as efficiently as possible. But when exactly is an activity efficient? In short, When you achieve your goals with little effort. Hupfer offers efficient solutions along the entire process chain in sterile supplies logistics.
