

Safe and smooth, everything at hand

**ErgoSlide® instrument basket – with innovative slide
rail for perfect handling**

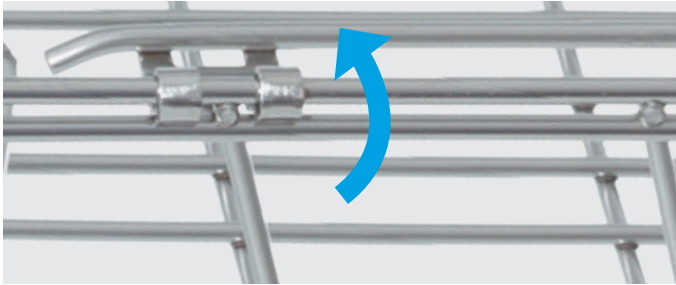

The **ErgoSlide®** series from Hupfer gives you a crucial advantage in safer and more ergonomic sterile supplies logistics. The foldable side rails allow for the baskets to slide on top of each other, without the upper basket slipping into the lower one.

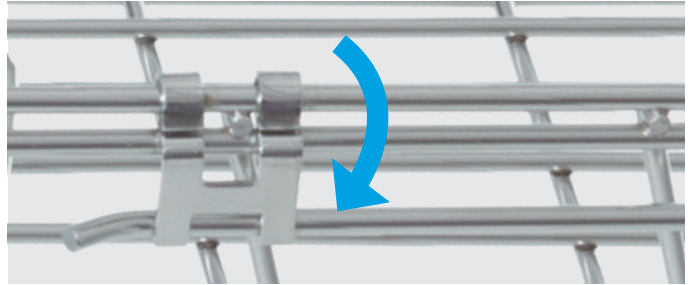

The patented ErgoSlide® side rails ensure optimum loading capacity and stability.

For space-saving stacking, the rails are simply folded down.

Slide rails folded down: Baskets can be stacked and slide on top of each other.

Slide rail folded out: Baskets can be stacked inside each other to save space.

Lots of advantages – thanks to the new slide rails

The slide rails on the sides can be simply folded out or in, depending on how you want to stack the baskets. They can handle heavy-duty daily use and are designed so that they can be easily checked for dirt and cleaned when necessary.

The various basket designs can be stacked inside or on top of each other as required.

Item no.: 7501863

Item no.: 7501860

Item no.: 7501861

Item no.: 7501862

Advantages at a glance:

- Patented slide rails for ergonomic handling
- Optimum protection for soft packaging and instruments
- Can be stacked inside and on top of each other
- Reliable edge guard for additional protection of soft packaging
- Robust, easy-to-clean rail attachment

Item no.:	(W x D x H) mm	StU	Clear internal dimension Base mm
7501863	600 x 292 x 97	1/3	547 x 268
7501860	600 x 292 x 138	1/2	547 x 268
