гарантируется.

The stainless steel sheet grate support of the Norm 5 shelf provides a ventilated, secure, and hygienic storage surface for high load capacities. It is suitable for continuous use at ambient temperatures from -40°C to +60°C.

The easily hooked-on sheet metal grate support made of high-quality stainless steel provides a ventilated, secure, and easy-to-clean storage surface. This support for the Norm 5 shelf can bear heavy loads. Temperatures from -40°C to +60°C also pose no problem in the long term.

- Sheet metal grate design in stainless steel ensures ventilated, safe, and hygienic storage and preservation of the stored goods' condition
- High-quality workmanship from premium stainless steel enables perfect hygiene and easy cleaning
- Valuable materials ensure sustainability and value retention
- Robust construction guarantees high load capacity
- Modular system allows for easy handling from assembly to cleaning with minimal effort
