Single-ended trolley with smooth 33.5 × 19.7" (850 × 500 mm) shelf.

Trolley in robust, self-supporting and hygienic design, made of high-quality stainless steel. Complete frame construction made of round tubes. Platform made of 5 round tubes with welded stainless steel plate. Onesided round tube push bar welded to the platform, ergonomically angled by 30°, ensures good manoeuvrability. Push bar with integrated front panel made of round tubes. Trolley runs on 2 swivel casters with total locks and 2 fixed casters, fastened by means of screw-on plates and several screws.

The Hupfer single-ended trolley STWP 8,5x5 provides the highest overall load bearing capacity in comparison to other products, and its ergonomically angled push handle gives it outstanding handling properties.
