

## Reinforcement bar for shelf 1000×600 mm

Технические характеристики изделия 0114583 | VUZ SW 10x6

### Технические характеристики

<b>Масса:</b>	2 кг
<b>Ширина:</b>	975 мм
<b>Глубина:</b>	597 мм
<b>Высота:</b>	29 мм

*Показан пример без декоративных элементов, точность технического описания не гарантируется.*

The reinforcement beams increase the stability and load capacity of the serving trolleys.

The reinforcement beams distribute the weight of the load evenly across the entire serving trolley. This minimises the risk of deformation or instability, especially with heavy or unevenly distributed loads. Thanks to the robust construction and the use of high-quality, recyclable stainless steel, the anti-sway bars ensure a long lifespan and hygienic cleaning of your serving trolley, even with intensive use.

- for an even distribution of the load
- increases the stability and load capacity of the serving trolley
- use of high-quality, recyclable stainless steel for long durability and hygienic cleaning
