<b>Глубина:</b>	600 мм
<b>Высота:</b>	655 мм

Показан пример без декоративных элементов,  
точность технического описания не  
гарантируется.

Open basket dispenser for installation into worktop, with height-adjustable platform for storing 19.7 × 19.7" (500 × 500 mm) or 20.0 × 20.0" (508 × 508 mm) baskets with small or difficult-to-stack crockery items.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Open design, for installation from above, with shelf frame and open stacking compartment. Removable basket made of plastic-coated stainless steel, as stacking platform with ball bearing platform guide, can be included in stacking capacity. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via a cleaning opening in the base plate.

The Hupfer encounter basket dispenser EBST-KO 50-50 is used for stocking and handing out tableware that cannot be stacked in baskets, or only to a limited extent. The guide basket, which comes as series standard, is the same as the non-rusting, stainless steel crockery baskets available as an optional accessory, and increases the stacking capacity by approx. 20 %. The removable basket guarantees easy access to the interior in order to adjust the spring and for cleaning.
