The TAWEDEL tray clearing trolley is used for the interim storage and return transport of dirty dishes on site-provided trays.

The TAWEDEL tray clearing trolley is a hygienic, sturdy tubular frame construction made of stainless steel. The Hupfer tray clearing trolley is designed for space-saving interim storage and smooth return transport of dirty dishes in your communal catering, self-service restaurant, cafeteria, or similar establishments.

The firmly welded, robust stainless steel tray supports allow trays to be slid in effortlessly. Lateral braces ensure optimal tray centring. Double-sided push-through protection prevents trays from accidentally falling out. Extensive options regarding model, equipment, special dimensions, insertion direction, and colour allow for a customised design of your tray clearing trolley. High-quality castors in various versions enable easy manoeuvring and precise handling.

- Extensive options allow for customised design and individual usage possibilities
- Design of the supports ensures effortless insertion of trays and organised interim storage of loaded trays
- Side bracings enable optimal tray centring
- Double-sided push-through protection prevents accidental falling out and
