Open platform dispenser with platform suspended on springs for transporting two stacks of Euro containers 600 x 400 mm.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Open tube frame design with panellings at the face sides and removable, high-quality stainless steel platform with ball bearing platform guide. Consistent output height thanks to manually adjustable stainless steel tension spring system. One frontal push bar made of ergonomically-shaped stainless steel round tube. Four polymer corner bumpers serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged. Dispenser runs on 4 swivel casters of which 2 with total locks, \varnothing 4.9" (125 mm), fastened by means of screw-on plates and several screws.

The Hupfer ERGO general purpose trolley BD/O EB 2/60-40 can be used as a space-saving means of transport, storage and provision for Euro containers filled with silverware, for example.
