Transport trolley for lengthwise insertion of 600 × 400 mm Euro containers for storing goods in production.

Trolley made entirely of high-quality stainless steel, stable, self-supporting and hygienic design. Frame made of rectangular tube with plastic end caps and firmly welded L-rails for lengthwise insertion of Euro containers. Stop bars on both sides as per DIN EN 18867-2. 4 polyethylene disc bumpers for all-round collision protection of the trolley and walls. Trolley with 4 swivel castors, including 2 with total brakes, ø 125 mm, with pin fixing.

The Hupfer production trolley for Euro containers PW EB 1 / 5 is a lightweight, compact and manoeuvrable trolley, making it particularly suitable for use in tight production spaces and for order picking of smaller product quantities.
