<b>Масса:</b>	4 кг
<b>Ширина:</b>	1000 мм
<b>Глубина:</b>	573 мм
<b>Высота:</b>	90 мм

Показан пример без декоративных элементов,  
точность технического описания не  
гарантируется.

The wire rack for 2 Euro containers enables efficient storage and organisation of Euro containers by providing a clear separation between them. Additionally, the wire rack supports the safe transport of the containers by preventing them from slipping during transit.

1000 × 600 mm electro-polished stainless steel wire shelf for two 600 × 400 mm Euro containers. Shelf made of 35 × 10 × 3.0 mm longitudinal angle sections for hooking into uprights with a 75 mm pitch. Welded ø 6 mm cross wires in between, forming surface with approx. 16° forward inclination, welded with longitudinal reinforcements made of ø 5 mm wire. Additional welded 45 mm high ø 6 mm wires as additional stops on the front and face and partition between the containers.
