The swivel castor is used for attachment to mobile devices. The swivel castor enables the mobility, steerability, and control of the devices.

The easy-running swivel castor made of high-quality plastic with zinc-plated steel parts is corrosion-resistant and is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless turning, steering, and positioning of the devices using the swivel castors increase efficiency and safety in carrying out tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for easy handling of the devices, even with heavy loads. The ball bearing and thread guard enable almost silent and smooth mobility. The swivel castor is securely mounted to the device using a rear hole, ensuring stability.

- Durable plastic housing ensures longevity - Swivel bearing with double ball ring enables effortless movement and precise control - Ball bearings and thread protection ensure near-silent and smooth operation
