Технические характеристики

Размер ячейки:	125 mm
Тип шин:	Lengthwise insertion
Полезная нагрузка:	120 kg
Масса:	35 кг
Ширина:	820 мм
Глубина:	687 мм
Высота:	1635 мм

The TAWALU tray clearing trolley from Hupfer allows for the interim storage and return transport of trays. It supports the organisation and safe transport of dishes, ensuring a smooth process.

The TAWALU tray clearing trolley from Hupfer is the ideal solution for the efficient interim storage and return transport of up to 20 GN trays. The torsion-resistant construction made of high-quality aluminium allows for effortless manoeuvring with minimal effort. Stable inserts made of stainless steel wire ensure safe and easy insertion of the trays, while the double-sided push-through protection prevents accidental falling out during transport. High-quality swivel castors ensure smooth movement and precise manoeuvring, even in confined spaces. The hygienic design facilitates cleaning and ensures optimal hygiene in use. The TAWALU tray clearing trolley is the perfect choice for communal catering, self-service restaurants, and cafeterias. Rely on the quality and functionality of Hupfer!

- Torsionally rigid construction made of aluminium allows for effortless manoeuvring with minimal effort.
- Extensive design options offer individual styling and adaptation to specific requirements.
- Stable inserts made of stainless steel wire ensure easy insertion and tidy interim storage of trays.
- Double-sided push-through protection prevents trays from inadvertently
