Технические характеристики

Размер ячейки:	125 mm
Тип шин:	Lengthwise insertion
Полезная нагрузка:	120
Масса:	35 кг
Ширина:	820 мм
Глубина:	687 мм
Высота:	1635 мм

The TAWALU tray clearing trolley from Hupfer allows for space-saving interim storage of trays and the smooth return of dirty dishes. The sturdy construction ensures safe transportation and orderly handling of the trays.

The TAWALU tray clearing trolley is a hygienic, torsion-resistant tubular frame construction made of aluminium. Even under maximum load, you can manoeuvre the Hupfer TAWALU with minimal effort. The tray clearing trolley serves as a space-saving interim storage and ensures smooth return transport of dirty dishes in your communal catering, self-service restaurant, cafeteria, or similar establishments.

The firmly welded, sturdy tray supports made of stainless steel allow trays to be slid in effortlessly. A double-sided push-through guard secures the trays and prevents them from falling out unintentionally. Extensive options regarding model, equipment, special dimensions, insertion direction, and colour scheme allow a customised design of your tray clearing trolley. High-quality swivel castors in various versions enable smooth driving and precise manoeuvring.

- Torsion-resistant aluminium construction allows for easy driving with minimal effort
- Extensive options enable customised design and individual usage possibilities
- The design of the supports ensures effortless sliding in of trays and organised interim storage of loaded trays
