

Isobox Flex L for 16×GN 1/1

Технические характеристики изделия 0223144 | IBF L 1/16 75 GN

Технические характеристики

Размер ячейки:	75 mm
Тип шин:	Lengthwise insertion
Полезная нагрузка:	144
Масса:	73 кг
Ширина:	585 мм
Глубина:	799 мм
Высота:	1594 мм

Показан пример без декоративных элементов, точность технического описания не гарантируется.

The Isobox Flex is designed for the dispensing and temperature-safe transport of food components in GN containers or on GN trays over long, demanding transport routes. With the Isobox Flex L, you can transport food in a large compartment.

The Hupfer Isobox Flex L for 16×GN 1/1 is a versatile insulated transport solution designed for commercial catering. Its aluminium construction with solid corner bumpers offers lightweight stability and robust protection, ensuring reliable daily use. The insulated housing maintains optimal temperatures, keeping hot and cold food components fresh on long, demanding transport routes. Tool-free mounting for heating, cooling, and neutral modules allows flexible adaptation to varying temperature needs. Deep-drawn stainless steel beads provide durable, hygienic shelving that securely supports GN containers and simplifies cleaning. True-tracking mobility with swivel and fixed castors ensures easy manoeuvring and stable transport, even on challenging surfaces. The Isobox Flex L solves temperature control and transport challenges efficiently, making it ideal for off-premises catering and meal distribution. This innovative product from Hupfer Metallwerke GmbH & Co. KG combines durability, hygiene, and ergonomic design for seamless food logistics.

- Insulated housing maintains optimal temperature for hot and cold food components during long transport routes
- Mounting for neutral, cooling and heating modules allows flexible, tool-free adaptation to various temperature requirements
