

## Hook trolley 4 pairs of hooks

Технические характеристики изделия 7500465 | HAW 605/675/1097

2/4HP

### Технические характеристики

<b>Полезная нагрузка:</b>	240
<b>Масса:</b>	6 кг
<b>Ширина:</b>	605 мм
<b>Глубина:</b>	675 мм
<b>Высота:</b>	1097 мм

*Показан пример без декоративных элементов, точность технического описания не гарантируется.*

Hook trolley for the transport and storage of sterile goods baskets and other hanging parts for the hook system.

The Hupfer hook trolley with 4 pairs of hooks made from high-quality stainless steel offers a durable and hygienic solution for the transport and storage of sterile goods baskets. The sturdy tubular frame with curved corners ensures a self-supporting design and easy cleaning. Double-sided pairs of hooks allow for secure and space-saving hanging of various attachments. Polyethylene bumper rollers protect the trolley and walls from damage, while four swivel castors, two of which have total locks, guarantee smooth manoeuvrability and a secure stand. The hook trolley optimises sterile logistics through safe handling and efficient use of space. Ideal for medical facilities that rely on reliable and hygienic transport solutions.

- High-quality stainless steel ensures a durable, hygienic, and corrosion-resistant construction
- Double-sided pairs of hooks allow secure and space-saving hanging of sterilisation baskets and hanging parts
- Tube frame with curved corners guarantees a stable, self-supporting design and easy cleaning
- Polyethylene bumper rollers protect the trolley and walls from damage and increase operational safety
