Heavy-duty medical general purpose trolley with deep shelves

High-quality stainless steel trolley in stable, self-supporting and hygienic design. Closed, all-round ø 25 mm round tube frame with 4 welded deep shelves 1000 × 600 mm with 10 mm high profile edge, hygienically folded by 35 mm and rebated inwards, designed for easy cleaning. Push bars integrated in the tubular frame on both sides ensure easy manoeuvrability. 4 polyethylene disc bumpers provide collision protection and protect all sides of the trolley and nearby walls from damage. Trolley runs on 4 corrosion-protected swivel castors, ø 125 mm, 2 of them with lock, polymer housing with polymer wheel and antistatic plain bearing, fastened to additional reinforcement crossbars by means of screw-on plates with multiple screws.
