гарантируется.

Platform trolley with deep-drawn 39.4 x 23.6" (1000 x 600 mm) shelf.

Trolley in robust, self-supporting and hygienic design, made of high-quality stainless steel. Closed, continuous round tube frame with welded, deep-drawn shelf with profile edge, lined with sound insulation on the underside, hygienically folded and rebated inwards, designed for easy cleaning. Onesided push bar integrated into the tube frame ensures good manoeuvrability. 4 polyethylene disc bumpers serve as bumpers and protect trolley on all sides as well as building-side walls from being damaged. Trolley runs on 4 swivel casters of which 2 are equipped with total locks, ø 4.9" (125 mm), fastened to additional reinforcement crossbars by means of screw-on plates and several screws.

The Hupfer platform trolley PW 10x6 has castors that are attached to mounting plates in a particularly sturdy manner with four bolts each, while its low empty weight ensures it has outstanding handling properties.
