Технические характеристики

Показан пример без декоративных элементов, точность технического описания не гарантируется.

Размер ячейки:	150 mm
Max. bay load	150
Max. section load	600
Carbon footprint (TM65 Basic Report)	1605 kgCO ₂ e
Масса:	77 кг
Ширина:	4725 мм
Глубина:	600 мм
Высота:	1600 мм

Полка перфорированная из листа нержавеющей стали 0,8 мм, с обрезной, зачищенной от заусенцев кромкой, отогнутой и зафальцованной внутрь по продольной стороне на 40 мм, по фронтальной стороне — на 30 мм. Выдавленные пазы шириной ок. 32 мм на расстоянии ок. 50 мм.

The Hupfer Norm 12 stationary shelving is a lightweight structure made from a combination of aluminium and polymer. The shelving offers a clearly arranged and easily accessible storage solution for organised logistics. The modular design allows for a needs-specific layout for a wide variety of spatial and temperature conditions, thereby ensuring the most efficient use of space. Uneven floors and temperatures from -30°C are no problem, even on a permanent basis. The shelving is easy to assemble and can be extended at any time in a straight line or even around corners and is easily adapted to changes in everyday logistics. The easy-to-install, louvred shelf provides a ventilated, stable and very easy to clean shelf surface. It is even dishwasher safe. This shelf holds heavy loads despite its light weight. The materials used are sustainable, 100% recyclable, and so valuable that Hupfer guarantees that it will buy back all of your shelving at the end of its useful life.

- solid polymer shelf with low weight ensures ventilated, safe and hygienic storage and keeps the stored goods in peak condition
- high-quality polymer workmanship allows for easy cleaning and perfect hygiene. It is even dishwasher safe.
- modular system allows for any design and extension and ensures the most
