

## Stationary shelving set norm 35 with solid shelf

Технические характеристики изделия N35GS9006101800 | SPA/O 3/24 AR-4GN

## Технические характеристики

Показан пример без декоративных элементов, точность технического описания не гарантируется.

Размер ячейки: 75 mm Тип шин: Lengthwise insertion **Carbon footprint (TM65 Basic Report)** 414 kgCO□e 120 kg Полезная нагрузка: 44 кг Macca: Ширина: 900 мм Глубина: 610 мм Высота: 1800 мм

Mobile bain marie in low version with three-part and additional left-aligned top for storing GN 1/1 containers and associated partition elements for cold dishes.

Trolley in robust, self-supporting and hygienic design, made of high-quality stainless steel. Tubular frame rack with welded L-shaped shelf rails with push-through protections on both sides as per DIN EN 18867-2, suitable for lengthwise insertion of GN containers. Additional containers can be attached into an upper frame made of stainless steel tubes. Welded, horizontal frame top, offset to the rear by approx. 7.6" (193 mm) with reference to the base rack, for attaching additional containers. An additional top inclined towards the operator is welded on it right-aligned, for holding a container that is to be attached crosswise. 4 disc bumpers at the base rack and 2 polyethylene corner bumpers at the frame top serve as bumpers and protect the trolley on all sides as well as building-side walls from being damaged. Trolley runs on 4 swivel casters of which 2 with total locks, Ø 4.9" (125 mm), with pin fastening.

The Hupfer mobile bain marie SPA/O 3/24 AR-4GN features a rail spacing of 75 mm, which gives it a capacity virtually twice as large (when GN containers without lids with a depth of 65 mm are placed in it) in comparison to other products. The trolley allows direct access to the content of 7 gastronorm 1/1 containers in total. The horizontal installation of the add-on rack makes it perfectly suited for holding containers with foods in liquid form.
